

MSV FAIR USAGE POWER POLICY

This applies to ALL race event and test days.

Please note that MSV operates a Fair Usage Policy for power on-site. Only essential equipment, such as tyre warmers, may be plugged in. Small, low consumption devices like mobile phone chargers and kettles are also acceptable.

Other equipment and devices are NOT to be plugged in, including in particular:

- Electric vehicles (EVs/PHEVs)
- Portable heaters

As part of their daily duties, circuit staff will be regularly checking for the above items.

Failure to abide by the Fair Usage Policy could lead to exclusion from the rest of the race event or test day and/or a charge of £100.

Whilst our energy prices have increased significantly in recent times, we do not intend to charge our customers for reasonable usage on race and test days. Please help us maintain this approach by only using power that you really need.
